Genesis Knotless & Hybrid Knotless Anchor

Part Number	Description
10KC4751	Genesis Knotless 4.75 mm Suture Anchor
10KC5501	Genesis Knotless 5.5 mm Suture Anchor
10KP4751	Genesis Hybrid Knotless 4.75 mm Anchor
10KP5501	Genesis Hybrid Knotless 5.5 mm Anchor

The Genesis Hybrid Knotless anchors are intended for re-attaching soft tissue to bone. The anchor is manufactured from biocomposite materials (PLGA copolymer and β -TCP), a non-absorbable PEEK tip and a non-absorbable UHMWPE suture. The anchor is implanted using a provided driver.

Instrument / Various punch and tap options
